

Peter Henke has been a University of Michigan faculty since July 2000. He rose to Professor of Surgery in 2009, and retains the Leland Ira Doan Research Professor of Surgery endowed chair. He is the past Associate Chair for Research for the Department of Surgery. His research interests include a focus on vascular medicine, DVT risk assessment, and translational research related to venous thrombosis resolution and vein wall injury. He has been funded by multiple sources for these research interests. He has served on numerous NIH study sections as well as the VA surgery study section. Clinically, Dr Henke's practice includes major abdominal aortic procedures, cerebrovascular occlusive disease, hemodialysis access and peripheral vascular procedures; both open and endovascular. Nationally, he has held positions in the Midwestern Vascular Surgical Society, the Central Surgical Association, the Society for Vascular Surgery, and the American Venous Forum, where he served as its President.
